PROFESSIONAL SW-VC15

Efficient Effect of Sonic Waves

The Sonic Life units emit sonic (sound) waves which exercise and stretch tendons and ligaments which are difficult to work out with traditional exercise. The units also exercise small muscles such as facial and pelvic muscles which traditional exercise cannot do as effectively.*

PULSATION SW-VM15

General Exercise Training For Body Balance & Health

The Sonic Life units are very effective and efficient exercise machines for those who cannot exercise due to physical problems or disabilities as well as for trained athletes. In 10 minute sessions, and in a floor space of about 3 feet square, users can exercise easily and quickly. The user experiences the similar effect of regular aerobic exercises by just standing on the unit.*
